Course Description: This course will develop your ability to organize, analyze and interpret real-world data – skills that are growing increasingly important and valuable in industry, government and research settings.

Grading:

Class Participation	10%
Problem Sets	10%
Midterm Exam	20%
Final Exam	30%
Research Project	30%

Class Participation and Attendance: Because the best way to learn applied econometrics is to actually do it, it will be assumed that all students will be in attendance every day. That said, I will be enforcing the administrative drop rule for the first week of class, so be there or get booted. Participation in class discussion will constitute 10% of your final grade. To facilitate and track participation and attendance
